Curtain liner

Unlined

Curtains without any lining, allowing full natural light to filter through the fabric.

Best for

Sheer curtains or functional blackout curtains (e.g. Atlanta, Regal, Lila collections).

Benefits

- Provides a soft, natural glow.
- Highlights the curtain fabric's texture.

Privacy Liner 70% Shading

Fabric

117 gsm (lightweight), 100% cotton, white finish.

Light Block

60%-70% of sunlight.

Benefits

Natural and eco-friendly cotton fabric allows breathability while offering basic privacy and glare reduction.

Blackout Thermal Liner 100% Shading

Designed for maximum insulation, helping to reduce energy costs by blocking heat transfer.

Fabric

Microfiber with 3-pass white foam, **250 gsm**.

Light Block

100% of sunlight.

Benefits

- Provides sunblock and sound insulation, promoting a quieter and energy-efficient space.

Care Notes

- Machine washing is not recommended; wipe to clean.
- Pinholes in seams may cause slight light transmission.
- Coating may affect the stitching color in black, especially with light fabrics.

Same Color Liner

The same-color liner refers to using the same curtain fabric as the back liner, enabling the front and back of the curtain to be in the same color and material.

Best for

- Room divider

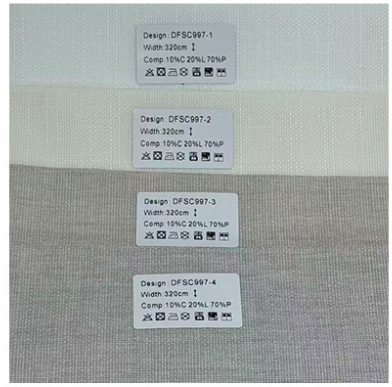

Benefits

- Enhances the overall visual harmony but also boosts functional aspects like light control and fabric quality, giving the curtains a well-designed, tailored appearance.

2 . Sheer Curtains

Soft, airy, and elegant—sheer curtains bring gentle light while keeping your home bright and open.

3 . Roman Shades

Roman shades combine practicality with minimalist beauty. When raised, they fold neatly; when lowered, they create a smooth, refined look.
